

Rebecca Vernon

I was co-opted as governor in February 2020, taking on the link governor responsibility for well-being and Health and Safety.

Since 2016 I have been a member of the Extra Time club staff and also worked in school as a Teaching Assistant. I recently begun attending PTFA meetings, sharing ideas, thoughts and when available help to organise events for the school and wider community.

I am a confident, efficient and highly motivated individual with a natural responsible and caring attitude. I have a passion for child development.

I believe a strong relationship with other individuals helps to encourage an open and responsive environment to develop processes and strengthen relationships.
