Dear Parents and Carers,

Firstly, I would like to thank you all for your positive encouragement and offers of support during our present health crisis. People have been sensible and considerate in making decisions about absences and we are very grateful as it is helping to keep our staff and children safe. This will in turn help us to remain open for as long as possible.

We have begun making preparations in case of school closure and in the event of closure during term time the following will be implemented:

- All phone calls to the office will be directed to my personal phone and I will happily talk to parents about any educational or safeguarding issues.
- All post will be redirected to my home address.
- I will remain in touch with families needing extra support from external agencies and continue working with them.
- Emails sent to the office and headteacher will be checked daily.
- There are ideas on each class page, on the website, to support learning at home. Parents are welcome to make suggestions to support home learning, which can be emailed to me. We will update work/ideas for activities on the school website and send notifications to you all via our texting service.
- We will communicate via text to inform you of anything relevant and the website will also be maintained.
- Teachers will be working from home on planning, reports, data tracking etc to ensure we are well organised for when things return to normal.
- Year 5 Brass - individual logins will be sent out.

In the meantime, we are continuing to follow the latest DfE guidance which you can see in full on our website in the newsletter area entitled 'Coronavirus Update', this is updated daily usually towards the end of the day.

The most important advice is to NOT send children into school with a persistent/new continuous cough or temperature. With any of these symptoms, children should remain absent for 14 days and the family should self isolate.

Thank you all so much for your cooperation.

Kindest regards.

Ms Golden
