# **Curriculum Policy Statement for Religious Education**

## General Principles and Philosophy

The RE curriculum should promote the spiritual, cultural, intellectual and physical development of pupils in order to prepare them for adult life. In promoting children's development, it is important to consider the context of their environment and experience. Pupils come from families with outlooks that are both religious and non-religious. The world in which the children are growing up is broadly multi-cultural with different faiths and cultures being represented in the local area. Children therefore need an awareness of and sensitivity to, the beliefs and values of others. Our school is a Church of England (Controlled) school. We have close links with All Saints' Church in the village and the children are encouraged to learn about its work. The vicar is vice-chair of governors and is a highly involved friend of the school. He contributes immensely to all aspects of Worship and also supports the RE curriculum. In addition, Revd. Jo Thornton from the Methodist Church comes into school regularly; visiting each class termly to discuss RE curriculum topics and Christianity.

## The National Curriculum.

RE is a statutory part of the school curriculum. It has its own individual context but also contributes to other areas of the curriculum in aesthetic, environmental, social, moral, spiritual and cultural terms.

<b>Spiritual</b>	Widening pupils' vision of themselves and their own experience, within the context of a growing awareness and understanding of God.
<b>Moral</b>	Helping each pupil develop their own informed values.
<b>Social</b>	Helping pupils understand some major forces shaping the values of our society.
<b>Cultural</b>	Aiding pupils in exploring aspects of their own cultural heritage, and developing positive attitudes towards diversity.

## The RE Curriculum

The school uses the Lichfield Diocesan RE Guidelines, Understanding Christianity resources, other appropriate materials to enhance teaching and learning and is at least as ambitious. The long and medium term schemes of work have been planned with an awareness of our school context to promote the spiritual, cultural, intellectual and physical development of pupils in order to prepare the children for adult life.

Planning shows progression in skills and knowledge - termly and year by year - so that learning builds on what has been taught previously. There are meaningful links and connections between science and other areas of the curriculum such as geography, PSHE and the environment. RE is assessed, shared and used effectively so that teachers have a clear idea of starting points for learners to reach their potential.

## **Aims of All Saints' Primary School:**

Through Religious Education the school aims to: provide pupils with the opportunity to widen their views of themselves and their experiences and to develop their own informal values to provide the opportunity to identify and understand some of the forces within today's society; being able to explore aspects of their own culture and develop positive attitudes towards diversity of belief and practice. This is encompassed within a 3-year rolling programme along with Faith Focus Days held each term.

## **Objectives**

- To enable pupils to know about and understand Christianity as a living faith that influences the lives of people worldwide and as the religion that has most shaped British culture and heritage.
- To enable pupils to know and understand other major world religions and worldviews, their impact on society, culture and the wider world, enabling pupils to express ideas and insights.
- To enable pupils to develop knowledge and skills in making sense of religious texts and teachings and understanding their impact on the lives of believers.
- To enable pupils to develop and understand the role of worship within other religions.
- To develop pupils' abilities to connect, critically reflect upon, evaluate and apply their learning to their own growing understanding of religion and belief, of themselves, the world and human experience.
